

Soluble Zeolite Solution

Safe, Simple, Systemic Cellular Detoxification Support that has the ability to passively cross membranes in the body, including the blood-brain barrier.

## What is VITALITY Detox Drops (Clinoptilolite Fragments)?

VITALITY Detox Drops is a one of a kind hydrolyzed (water-soluble) zeolite solution. VITALITY Detox Drops has a honeycomb, cage structure and a natural negative charge that acts like a magnet. It binds toxins to the cage structure. These bound toxins are neutralized while they are still in your system and moved out of the body's normal elimination channels.

These water-soluble fragments are over a million times smaller than other zeolite formulas available. They have the ability to passively cross membranes in the body, including the blood-brain barrier. VITALITY Detox Drops is the gold standard of zeolite formulations and may just be the gold standard for systemic detoxification of heavy metals and environmental toxins.

VITALITY Detox Drops may provide support to:

- Safely remove heavy metals like mercury, cadmium, arsenic, lead, cesium, strontium, aluminum, uranium and others from your brain, tissue and cells.
- Effectively remove some bio-toxins such as black mold spores and Lyme spirochetes.
- Remove other environmental toxins including fluoridated, chlorinated and brominated compounds as well as pesticides and volatile organic compounds.
- Increase absorption of essential minerals and nutrients as well as super foods, herbs and essential oils.
- Increase cell hydration, cell membrane efficiency, vitality, and energy.
- Reduce cellular body fat while increasing basal metabolic rate and lean mass.
- Inhibit and eliminate the replication of rapidly reproducing abnormal cells.
- Decrease inflammation
- Increase overall energy as well as mental focus and clarity, and provide more restful sleep and enhanced dreams.
- Enhance healthy fat loss when combined with diet and exercise.
- Increase electrical activity in the brain as well as increase memory.
- Eliminate chemicals and toxins that future moms could share with their unborn during pregnancy.

## What is Zeolite?

Natural zeolites were formed thousands of years ago when volcanic ash reacted with seawater. Unique in nature, zeolite is a negatively charged natural mineral whose honeycomb cage structure binds and traps toxic metals, such as mercury, cadmium, lead, Cesium-137, and strontium-90. C.

## Zeolite Product Comparisons:

Powders and Suspensions compared to

Hydrolyzed “soluble” Zeolite solutions

Ninety-nine percent of all Zeolite products are either powders or suspensions that are unable to cross the cellular membrane of a healthy gastrointestinal tract and are therefore not bio-available to the human system. These products are no comparison to a Hydrolyzed “soluble” Zeolite solutions that work systemically. Fortunately, the scientific breakthrough of Vitality Detox Drops Hydrolyzed “soluble” Zeolite solution is now available. Our proprietary patent pending technology for a safe, bioavailable, systemic delivery is the most advanced formula available today! Test results, including heavy metal challenge tests and live blood cell analysis, show greater efficacy and users report experiencing “zero to none” detoxification symptoms as compared to our competitors “Hydrolyzed” formula.

## Features of VITALITY Detox Drops:

- The patent pending VITALITY Detox Drops molecule is the most advanced and safe water-soluble Zeolite product available on the market today.
- VITALITY Detox Drops naturally, passively and systemically cleanses your cells and brain tissue from toxins.
- VITALITY Detox Drops has the ability to cross the blood-brain barrier safely binding toxins to remove them from the brain and body.
- The constituent zeolite has “GRAS” (Generally Regarded As Safe) status as a food additive by the FDA.
- When toxins are removed inflammation decreases, hormones balance, health restores, weight is lost and lives are restored.
- The World Health Organization has stated and proven that heavy metals and other environmental toxins are the cause of over 90% of all of chronic health issues and disease.
- Pregnant women pass a lot of toxins on to their unborn babies. Therefore VITALITY Detox Drops is highly recommended for future mothers prior to becoming pregnant.
